## Mexico

### Anti-Terrorist Force

The Echeverria government, alarmed about recent killings and kidnappings by the extremist 23rd of September Communist League, has created a new police unit to deal with terrorism.

This year, the 23rd of September organization, which probably numbers 50 to 75 Marxist extremists, has killed 20 policemen in Mexico City and kidnaped the Belgian ambassador's daughter. The government is worried that the terrorists will try to disrupt the presidential election on July 4.
